## Professional Summary

---

Enthusiastic and detail-oriented Application Developer with hands-on experience in building cross-platform mobile applications using React Native and robust backend systems with Java Spring Boot. Strong understanding of RESTful APIs, database integration (MongoDB), and modern UI/UX principles. Passionate about solving real-world problems through clean and scalable code. Eager to contribute to dynamic development teams and grow as a full stack mobile app developer.

## Technical Skills

---

**Frontend Technologies:** Java , Javascript , React Native , Firebase, Redux , Tailwind CSS .

**Backend & Database Technologies:** Java , Node.js , REST API, JWT Authentication, Git & GitHub, MongoDB, MySQL (basic) .

**AI/ML & APIs:** OpenAI API (ChatGPT, Generative AI Integration), Third-party API.

**Tools & Version Control:** Git, GitHub, VS Code, Postman.

## Education

---

### Intermediate

Senior Secondary School , Piprakhem

Mar/19 - Mar/21

### Bachelor Of Technology in Computer Science & Engineering.

Panipat Institute Of Engineering & Technology , Samalkha

July/21 - July/25

## Projects

---

### Hospital Management System

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js (MERN)
- Designed and developed a responsive web application for hospital management.
- Implemented patient registration, doctor appointment booking, and an admin panel for managing users and schedules.
- Focused on RESTful API integration, secure user authentication, and responsive UI using React.

### Portfolio Website

- **Tech Stack:** React.js, Tailwind CSS
- Built a personal portfolio website to showcase projects, skills, and achievements.
- Implemented modern UI/UX with responsive design, smooth animations, and interactive effects.
- Added sections like About, Skills, Projects, and Contact Form with validation.
- Deployed on Vercel/Netlify for global accessibility and optimized performance.

### Personal Project

- **Tech Stack:** React Native, Spring Boot, MongoDB
- Developing a mobile app with scalable architecture to solve a real-world problem.
- Frontend in React Native and backend powered by Spring Boot with RESTful APIs.
- Currently in active development phase with focus on authentication, user flows, and performance.

## Certificates

---

**Frontend Web Development:** Udemy

**Full Stack Mobile App Development:** Self Study (Yt)

## Interests

---

**Reading and Learning:** Reading books and articles.

**Cooking:** Trying new recipes

**Gaming:** Playing Online Games

**Travel and Exploration:** Traveling to new places, Exploring local attractions
